Guidelines for hirers

- Hirers need to provide their OWN ROCKS.
- Paint MUST be poured into paint trays provided
 - Do not use directly from pots/tins, to ensure colours are not accidentally mixed. It doesn't take much paint to cover a rock.
 - Do not leave out for painters to access.
 - Only hirer/help to handle pots and tins.
- Paint is all exterior paint and does not require a sealer. Individuals can choose to seal their own rocks if they wish. (No sealer is provided with the kit).
- The kit is expected to be returned clean and tidy. All rubbish is to be disposed of appropriately by the hirer, and not left in the kit.
- All brushes need to be washed (as you go is a good idea) and stored either lying down or with bristles upwards. No water is to be left in the kit.
- Where possible any towels should be washed before returning.
